*The following is a consolidated report of state operations and fire activity in Santa Barbara County. Information in this report is gathered from state and county offices of emergency services. Some information may not be verified.*

**GENERAL REPORT:**

The primary plan today is to hold and patrol the contained portions of the fire including the east and south segments. Crews will work directly on the edge of the fire attempting to hold it in place and prevent a potential fire run up to the Camino Cielo Road. Direct line construction on the west side near Condor Peak is also being accomplished.

**EXTENT OF DAMAGE:**

- \* Total Acres Burned to Date: 9,443 acres
- \* Structures Destroyed: 4
- \* Structures threatened: 145
- \* Fatalities and Injuries: 6 injuries
- \* Percent Contained: 75%

**SUMMARY:** Construction of contingency dozer lines to the west near Refugio Canyon is expected to be completed today. Weather conditions are predicted to be favorable, similar to the past few days allowing for aggressive fire suppression tactics. There is a slight chance of dramatic weather change if the daily inversion dissipates sooner than expected. If this change occurs, suppression tactics will change to a less aggressive approach. Current evacuation **warnings** include West Camino Cielo, Kinevan Road area, Windermere Ranch, Haney Tract, Hidden Valley, Trout Club and Canyons west of Farren Road.
